

Gigabytes of attached files killing your Notes organization and your IT Budgets?

ZipMail is a true volume and cost reduction solution.

ZipMail transparently compresses into ZIP files the vast number of files your users attach daily to their Notes memos and documents. Doing so, it reduces your Notes related traffic, bandwidth and storage by 25% to 50%. Key features include transparent ZIP decompression, protection against unsafe files, drag & drop support, as well as more than 30 configurable options. All this in a single 160 Kb DLL file!

ZipMail /DB transforms into ZIP files the millions of attachments stored in your Notes Databases (email and apps) freeing up 25-50% of your Notes storage.

Zero user training - No template modifications
Instant deployment - 100% automated setup
Proven at the biggest Notes customers in the world.
Return On Investment in a mere few weeks of time.

Try for yourself!
